Subject: Feedback on October Independent Science Panels

Dear Participants:

Thank you for attending the independent science panel sessions on PLP's environmental baseline studies earlier this month at the University of Alaska Anchorage. We would like your feedback on the sessions you attended (either in person or over the webcast) and would appreciate it if you would complete a brief survey (by clicking [here](#)) by **November 6**. The feedback we receive will help determine future steps in the Keystone dialogue on the potential development of the pebble mine. Individual responses are anonymous and confidential.

Thank you again and best regards,

Todd
